Financial Performance Dashboard, 2018–2020

General ledger analysis of a 7-country company · 27,909 ledger entries · amounts in currency units (not stated in the source data) · Aditya Kushwaha

Net revenue 2020	Net profit 2020	Net margin 2020	Gross margin 2020
7.84M	**1.29M**	**16.5%**	**68.2%**
+37.5% vs 2019	-1.0% vs 2019	-6.4 pts vs 2019	-1.5 pts vs 2019

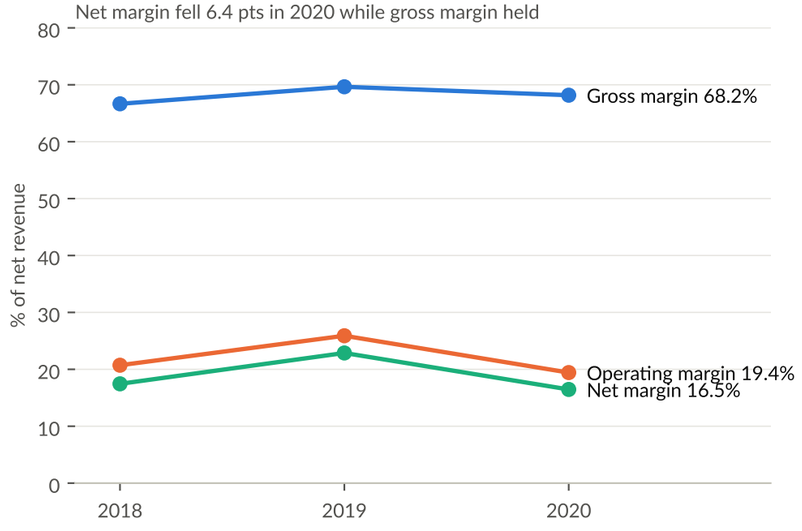

Net revenue

More than doubled, +119% over two years

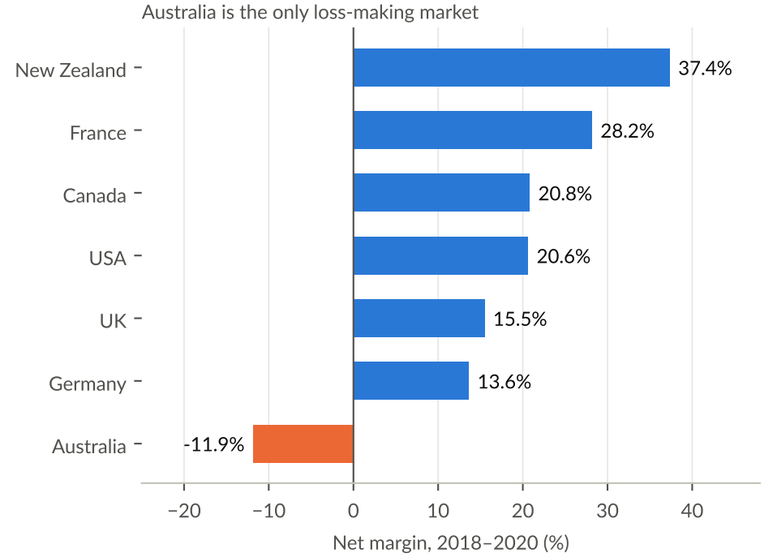

Margins

Net margin fell 6.4 pts in 2020 while gross margin held

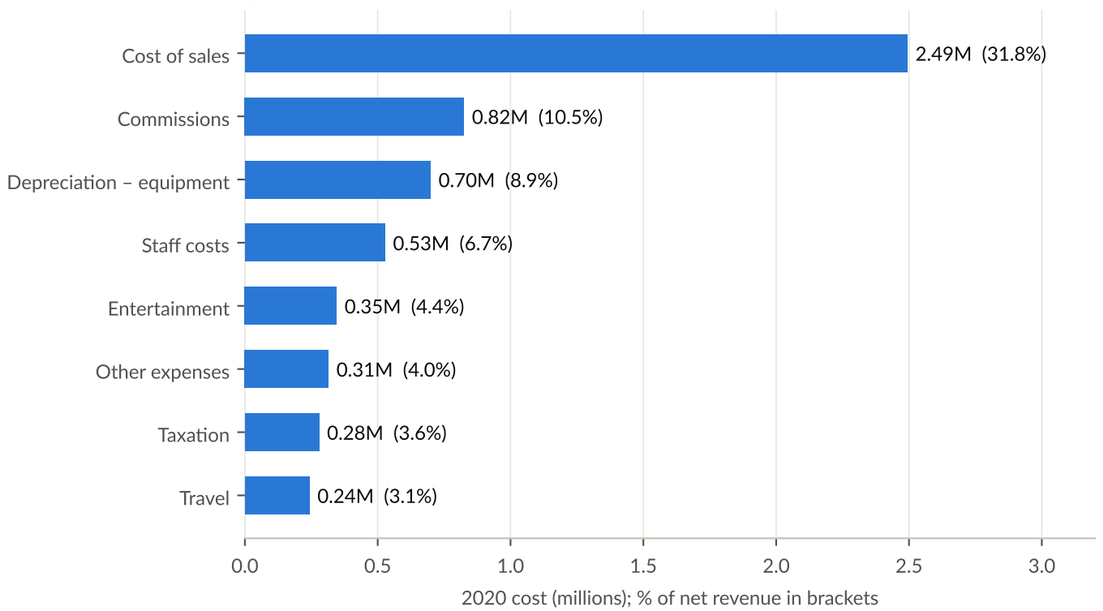

Net margin by country

Australia is the only loss-making market

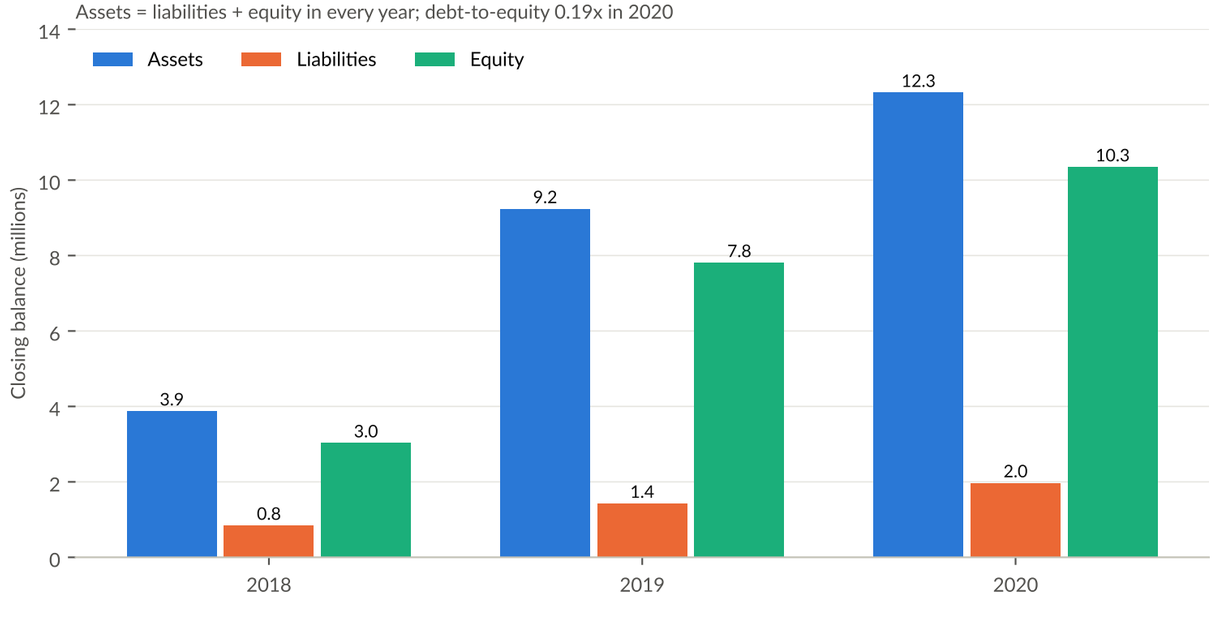

Largest costs, 2020

Commissions rose from 8.1% of revenue in 2018 to 10.5%

Balance sheet position

Assets = liabilities + equity in every year; debt-to-equity 0.19x in 2020

Source: student general ledger dataset (GL, Chart of Accounts, Territory, Calendar sheets). Analysis and charts by Aditya Kushwaha. Educational project.

Income statement and key findings

Profit and loss summary built from the ledger; income positive, costs negative

	2018	2019	2020
Net revenue	3,575,428	5,697,845	7,835,369
Cost of sales	(1,192,182)	(1,729,299)	(2,494,009)
Gross profit	**2,383,246**	**3,968,546**	**5,341,360**
Operating expenses incl. depreciation	(1,642,445)	(2,492,858)	(3,819,194)
Operating profit (EBIT)	**740,801**	**1,475,688**	**1,522,166**
Non-operating income	36,477	47,162	72,265
Interest and tax	(153,422)	(219,703)	(304,486)
Net profit after tax	**623,856**	**1,303,147**	**1,289,945**
Gross margin	66.7%	69.6%	68.2%
Operating margin	20.7%	25.9%	19.4%
Net margin	17.4%	22.9%	16.5%

Key findings

Growth with thinner margins

Net revenue grew from 3.58M to 7.84M (+119%), but net margin fell from 22.9% in 2019 to 16.5% in 2020. Net profit was flat in 2020 (−1.0%) despite 37.5% revenue growth.

Commissions are the main cost pressure

Commissions rose from 8.1% of revenue in 2018 to 10.5% in 2020, the fastest-growing expense. Commission terms are the first thing to review.

Australia is loss-making

Cost of sales in Australia climbed from 41.9% to 53.0% of sales, taking its net margin from +4.5% (2018) to −19.2% (2020). It lost 238,938 over three years.

UK sales fell 42% in 2020

UK sales dropped from 727,713 to 421,784, the only market to shrink, while every other country grew.

Strong balance sheet

Assets equal liabilities plus equity at every year end. Debt-to-equity is low at 0.19x and the current ratio is about 8x, so liquidity is not a concern.

Method

- Data: 27,909 general ledger lines (1 Jan 2018 – 31 Dec 2020), joined to the chart of accounts, territory and calendar tables.
- P&L: sums of signed amounts by account class. Net revenue = sales less sales returns; net profit = all profit and loss accounts.
- Balance sheet: cumulative closing balances by year; checked that assets equal liabilities plus equity (difference 0 in all three years).
- Ratios: margins as % of net revenue; debt-to-equity = total liabilities / total equity; current ratio = current assets / current liabilities.
- Tools: MS Excel for data preparation and check figures; Tableau Public for the interactive dashboard; this PDF report prepared with Claude AI from the same data.
